I recently completed a web programming course from Programming Hero and received the First-Class level in web development. Since then, I have been working on creating a new website for an e-commerce business. I have extensive knowledge of HTML, JavaScript, React, and NodeJs. Combined with my communication and problem-solving skills, I am well-versed in the best third-party platforms for achieving various goals. I've always been praised for my high-quality and practical solutions, whether I'm working with platforms like WordPress or creating bespoke new systems

Key Skills

Frontend: Html Css Bootstrap Tailwind Javascript React

Backend: MongoDB ExpressJS NodeJS Firebase Vercel

Tools: Vscode Netlify Github Figma

Web-services: Jwt Stripe auth UI & Ux Design

Project

Car-Dealer (Mern)	Live-Site	client-Site-Code	server-Site-Code
-------------------	---------------------------	----------------------------------	----------------------------------

- The website is designed responsively and anyone can sell cars here, Simple Navigate & User Friendly
